Please try not to mix up the required cuts (on the left) and the new records that are not on the required cuts list (on the right).

Also! Please try to put the performer's name first and the song title second in the needle drop. It makes it much easier for me to do playlists.

Welcome Back! And welcome to all new dj.'s and all those who are new to jazz!

So, Jenn, how do you like 1½ hr. slots?

All Right, Guys!

Where's Latitude - no. 3 on the required cuts list?
It's a great album, and I wanted to play it. We have few enough required cuts!

Well, I just found Latitude and Barry. They got mixed in with the end of the alphabet. Please be careful about that! And may I suggest Latitude? And Herbie Mann

Tina,
Just a note to say "Hi!" Mindy

Thanks Mindy! Hi back!

2/5: # Classical!! Read This!!

Classical DJ's - I just went poking thru the Time-Life record series, and it is an absolute mess- those boxes were in perfect (or close to it) condition in September, Now look - ie- Mozart - and some won't even open. True, I'm only an assistant, but I'm also a D.J., and when I want to play a request (yes, I do get some) I can't get into the damn box to see if we even have the record! Please be careful putting them back - ie- the open part of the black box faces up, not in. Now, enough of my bitching & complaining —— Sorry - I just needed to let off some steam. - I know it's not your faults. It's just frustrating.

- On a more upbeat note:

(1) I had a thought ...

We should all have a list of who can sub on which days, so if an emergency arises, we know who we can contact for subbing. In order to do this, please put your name & ext. under each day that you can do a show - not including your own. I'll get copies to everyone w/in a week or two if all goes o.k.

P.S. are any other forms of contraceptives allowed on the board e.g. spermicidal foam?

Allison Bouvet

2-16-88

Well now neither set of headphones is working makes making up very interesting. Also, why do you file requested cuts in the normal jazz section? It makes finding them a little difficult...

Mercurym

Hi everyone!

So far so good!
Go out to Wilbur tomorrow
(Wed) 11-4 & purchase
some great 45s, albums
and t-shirts!!

I'm really psyched
that almost all slots are

Who knows, maybe after

we'll fill them all.

Enjoy your shows!!

Melissa

Gosh, were you feeling talkative, wind? Tell me about the weather! My car didn't get buried more than once 'cause I didn't move it!! I had the worst spot on the entire campus, but I shoveled it out last night, and now I have the best spot. And I ain't movin'!!! I really did have the worst spot - the curb side next to Gaylord Library).

CD - of course there are records lying around the station. We're trying to organize a record scale; when there are that many people all looking through the same files at different times, do you have a better suggestion?

New Headphones, Guys! Yeah!

Love (Eve)

To Cindy Dummit.

Please stop leaving your diaphragm on the board. Really, it's pretty disgusting! I wonder who took the sign down. Someone with no sense of humor - i.e. someone who has trouble joking about these things.

the Evil One

[redacted] someone who was uptight about their sexuality or their eating habits.

Sue-

Hate to say it, but the 1½ hr. shows were a hell of a lot better. But to help my fellow jazz d.j's, anything.

What's the deal with all the contraceptive humor? I feel like I am truly missing something interesting.

Oh well. Another 2 hrs & 23 mins left. I'll find SOMETHING to do!

Jenn

Where's the Phillip Glass?!
It was there last semester - In the Classical section.

Jenn-

You did miss out on the contraceptive humor. But no mind. It's sure to repeat itself — look for signs.

But meanwhile — remember, NO CONDOMS ON THE BOARD!

Alicia

Ironically I am probably in a distinct minority in this case, but, I would really like to know which the Robert Robertson album went!

Please Return!

Eve, I hope you at least start your car once in awhile ... cold weather has a way of draining Classical car batteries— I should know, I'm on my 3rd battery in 4 yrs. (well maybe 2½ yrs.)

Classical D.J.'s!!! 2/22

well, I assume from the lack of response to my last note that the only Classical DJ(s) who read it was Shinjinee. well, I want to thank Shinjinee for her response, I hope others will go back & read & respond, since I think that we would all benefit from a classical sublist. well... have a good week of shows!

SP.

2/22

You know what I think would be amazingly helpful? If everyone who had a featured artist hour would write down what they had done so that we all wouldn't have to go searching through the needledrops to make sure the Smiths don't get played every day. I think it makes sense & as a matter of fact, I am going to do something about it, Dammit!

So... can you all please fill in what you've done on the last page of this comment book?? I even made a little cute graph so that it's easy to do! Thanks... it will make running into the station 5 mins. before your show a lot easier!

Tina

P.S. - I'm only kidding about the 5 mins. stuff. You know I never would do that! (He He - oops)

Some of you will remember arranging
for me to be told of your
Putting away the crowd she has
pulled. It was fun to have a look
back on the past & why but last week
that's five - that is when she leaves
whole stash of stuff!! Friends,
Please put your stuff away!!

All DJs;

Almost every time I walk into the station, I find ~~&~~ whole stacks of records ~~lying~~ laying about the station. Please put them away we do not have enough room to have them ~~lying~~ laying all over the studios I'm sure the next ~~DJ~~ DJ wouldn't mind putting away one record, but stacks are ridiculous!!

Also, the station in general is a mess.

Please make usure that you throw out all food containers!! If you don't throw it away, we might have to limit eating in the staff to only DTs at mealtimes. More about that at our general staff meeting!

Thanks for all helping out!!

Melissa

Windy -

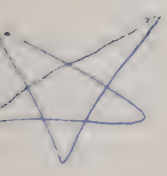
Your third battery?! Wow. Very impressive. I have moved my car, and I have lost my space. Oh, well. I'm too tired right now to really care. I don't know why I've been so tired lately. Must be all the Olympics I've been watching. Well, I'm outta here tomorrow, so that's something.

By the way, don't you just love the weather we've been having lately? Spring is on its way!

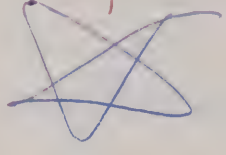
See ya! (Maybe?)

Eve

P.S. - Have you talked to Doug lately? When's he coming up?



Jazz DJ's:



Jenn - I know you don't like 3-hr. slots, but thank you very much for doing one. And thank you, Diane, for volunteering to sub even though you didn't end up having to. And welcome back, Kim!

Everyone:

PLEASE make sure you play at least 3 required cuts per hour! If the person before you played 4 req. cuts, you should be playing at least 5 because she only played one in her half of the hour, and you need to play two. So check her list when you come in. I would like you to play a minimum of 4 required cuts in an hour and a half, so that they are spread out more evenly; i.e., 2 (cuts) during that odd half hour. Required cuts in a three-hour

period should add up to 9 total.

Also, please see before you leave required cuts and plays. 8, that doesn't mean you should play 1. The rule is, 3 per hour.

And please check the required cuts list to make sure you are playing required cuts when you think you are. We are having a lot of trouble keeping them separate from the new records. I have put up a larger divider. Please use it. Try to separate the two as per the list so that there will be less of a chance of mixing them up.

Remember, if you don't play the required cuts, you have that much less say in their rating in the playlist. If you want Dave Valentin to be no. 1, you have to air him!

Megan-

Thanks for your requests. I'll put them on my priority list (actually, I think someone else recently requested them). If you want any other records, please let me know.

An Additional And Very Important Note To ALL Jazz DJ's:

I've just finished asking you to keep required cuts and new records separate. I have an additional request. PLEASE DO NOT FILE NEW OR REQUIRED CUTS ~~OR~~ WITH THE OLD RECORDS. This has been happening →

every week, I wanted to start alphabetizing, but I seem to be spending all my time searching for the required cuts. No wonder people are having trouble playing them. I found the Paul Winter Consort in with a stack of rock records on the floor and five other required cuts in the stacks. Required cuts and new records belong in the labeled areas at the bottom of the Jazz stacks!!

Also: Please be careful alphabetizing all records. The stacks are enough of a mess as it is, we (and especially I, but I hope you'll all help) will begin alphabetizing next week, & the required cuts are all where they belong, by then.

Please be careful about this, folks, it will make jazz djing a lot easier for everybody. And it will make your jazz director a lot happier.

-thanks- sue x4346

By the way, if you are unclear about this- New records are not necessarily required cuts- and sometimes after I do the playlist (every two weeks- we just did one), I take records out of required cuts and put them in new. I check the list - just to make sure.

OK? Any?

Any questions, please call me-

Thurs 2/23 - I read your note, too - However - at this point I am not sure about my free time - I think if we need subs - we will just call each other whenever necessary - also - we will be having a staff meeting really soon so that we can all meet each other and ~~talk~~ talk about ~~subs~~ subs - etc. So don't worry about that - right now. Have a good show to all Classical D.J.'s - and everyone else!

Rock Staff:

There is a stack of records on the floor of the production studio in front of the shelves— they need to be filed in the old section. Please file 10 of them whenever you're in the station and they should be put away in no time.

Thank you.

Patty

OK- This is it. Who took the Vestrymen tape? #1 it belongs to the station, #2 they are a local band playing here soon and we should be playing their music and #3 the tape only costs 2.98 or 2.99 so why can't you just part with $3 rather than stealing something from WMHC? You Make Me Sick.

I walked into the station and my eyes were blinded by the glare of cleanliness, not one record on the floor, everything neat, no records sticking out. Am I in the right place?

ERIKA

Thank you who ever did it.

Pattydid, Erika, during our show,

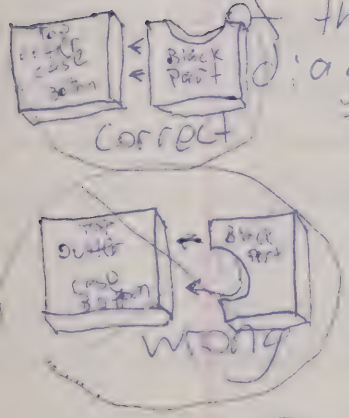
Yeah Yeah YEAH. YEAH

Thanks

Just though y'all should see my lovely handwriting since you haven't yet seen it this semester. I'm a typical guy. This place is actually neat & clean!

OK Classical D.J.'s!!

My wonderful Intern Pam & I spent forever prying The Time Life series Boxes open w/out tearing the sides apart. All Boxes are now accessible. Please be particularly careful placing black Part back into box so our collection does not get any more abused than it already (are) is. Remember— The open part of the black box faces up, not in - see diagram. This will ensure that the black part does not get stuck in the outter case again. I hope they all stay accessible. Thank-you for your anticipated cooperation!



Please also don't place them upside down so the records fall out when opened. Pam

Thank you, Mindy for fixing the Time/Life Series — It has taken some time trouble & pain to get everyone to figure out how to use those boxes — but now we all know — and there won't be any more trouble - RIGHT!!

Sorry Paula - I know a dinner meeting won't work - DUH - At the time — I was thinking dinner is probably the only time I have available to get to meet all of us Classy Classical D.J.'s - But actually — I didn't have Any time at all last week — So - we are going to try to meet some evening before break around 7:30 — in Mead Hall Wing Room - So everyone can get there after their shows - etc. I'll will be seeing & contacting you all soon though - So - Stay tuned - ♪ Thanks again, Mindy And everyone else for the great job w/ interns & shows!

YEAH!

I am truly amazed that the Dance ; Contemp section does NOT have JODY WHATLEY Roger (I Wanna Be Your Man), Salt-N-Pepa (Push it-Single) OR Mars (MJ) (Pump it up the Volume)! (all pumps)

These songs have been topping the charts for a long time and it would be nice if we could play them ON WMHC. I'm not sure if quite understand how records come to the station, but if these were added I'm sure it would only enhance Dance ; Contemp shows.

Thank You
Tara Roberts

br + maf:

Hey man, Alicia and I did our show on ACID today Neal! We played everything but Love + Rockets and they might be Goth! Now we're going to go work on our underground fanzine, man.

Yup it's 6:15 and I'm not on the air. I'm getting HYN through the EBS monitor & can't turn it off. The "listen" button on the monitor is jammed in & I can't un-jam it.

Christi A. Settle

↓ HEY! That happened to me too! You have to push the "reset" button very hard. Also — do we own the 'Round Midnight Soundtrack? If so, where? If not, we should!

Elizabeth

We Need it!!!

Okay — who's the dunghead who unplugged the TEAC? Boy did I feel dumb sitting there watching it not go around 'n around!

Where is the Neverland album? I wanna hear the little dyke singing O'er the Ramparts, hiccups and all.

And the Pete Banton album?

~~[redacted]~~

Please don't TAKE the RECORDS out of the Station. It's annoying!

Hey Patty!
Great Required Cuts!!! for once I don't mind playing more than 6! Thanks.

Amy

All DJs!

Have a great break!!
We go off the air at 12 noon on Friday March 18th and resume broadcasting at 6 am on Monday, March 28th !!

Thank ya to all who helped w/the concert.

The publicity was great, but unfortunately we didn't have a big turnout. Oh well...

Our next project will be a WMHC Record / T-shirt sale in Wilbur April 5-7, 11-4 pm. We'll need your help. Look for sign ups in the station after break.

Also, when we get back, we will have applications on the double doors to the station for the 1988-89 Board of Directors. Interested? Send them back to Melissa Kyplan, General Manager, Box 1713 by 5 pm April 5th (Tuesday).

Keep Sunday April 10th open since elections will be from 10 am - 5 pm in New York Room. I'll make an appointment with each of you during that time.

If you are interested in obtaining new records or old ones that we don't have, tell your specific director. Each music area has its own budget, so see if it's feasible to get your suggestions!

Jazz DJ's:

Definitely give me your suggestions on records, y'ue still got the list y'all gave me before, and I'm going to try to do something with it over break. Any last minute suggestions - call me, I'll be here 'til Fri. afternoon ('til the bloody end).

The needle-drop is looking much better required cut-wise. Thanks, guys. My blood pressure's going back down again. If you ~~have~~ set a sub, could you please just remind her (hum?) that we, too, need to do required cuts - 3 per hr. - and, if she's not a jazz d.j., tell her where the list is? Y'a est très necessaire. Remember that special programming people may especially have trouble remembering to play required cuts.

Thanks, you guys! Have a great break!! Hope I promise to have some new required cuts and hopefully some news records when you return.

Sorry about the short supply of PSAs — There will be more on Tuesday when I get my Mail

Your faithful ~~Traffic~~ director

Celeste

Hey you, Celeste,

Sorry about the mail delay but it's here now. The box was overflowing.

To the Acid heads (you know who you are),

Sure, we'll help out w/ the "Sewing Factory". Listening to Throwing Muses on acid is well worth paying for.

Stay trippin', Acid freaks

Classical D.J.'s & Sarah (I tried calling you)

3/28/08

OK! Now I'm really ticked off!! Someone messed up the time & Life'' Boxes again - This time it's Brahams and Prokofiev. What's worse is I have an idea which D.J. it is - Please be careful putting back records! These are two of my favorite composers, and boy was I bummed out!! Not to mention the wasted work Pam & I went through to fix them last time - I can't fix them today w/out breaking my nails, so it looks like we're all out of luck. - Cindy

P.S. - hope everyone had an awesome break!

- Hi Eve,

Love,
Wendy

Hey Gang -

The word from security as of 3/29 is: that starting now they will enforce the "2 person in station after midnight" rule. Meaning - they will kick d.j's out who are here alone after 12. Oh well.

Cindy

* Mindy I've tried calling you - can't do long - we'll meet soon!! Sarah

Patty -

A woman called from a rock newspaper. She said she's publishing a list of radio stations who play local music from all over Mass. She asked if we played local groups + I said YES!!! Amy Bower

I absolutely refuse to read the Banana PSA any longer!!!
It should be burned.

What's the deal w/ the symbol for "Required Cut"? It keeps fluctuating between "Req." and "R*"! Can we just decide on one? I keep getting confused!
THANK YOU! ☺

HEY JEN –
